

Seeking Project Manager / Architect

www.bdaarc.com

BDA Architecture – *Building Design for Animals*, an award winning design firm specializing in animal care facilities and located in Albuquerque, New Mexico is seeking an experienced architect with professional degree and outstanding talents in design and project management. Position requires proficiency in AutoCAD, conceptual design and 3D-modeling, SketchUp and Revit a plus.

Candidate must have ability to communicate effectively with clients and direct consultants. An understanding of materials, construction and engineering systems is required. Architect should be fluent in both contemporary and regional design styles.

Our clientele is nationwide with some international work. Our buildings range from 2,000 to 30,000 SF in size so the ability to execute on smaller projects with constrained budgets is essential. Current work qualified U.S. residents only; no overseas resumes please.

To apply please email cover letter and resume to BDA_HR@bdaarc.com.
