

Architectural Project Manager – Intermediate Level

AL : A is a small, progressive, architectural design firm located in downtown Las Cruces, New Mexico. Guided by principles of craft and innovation, AL : A creates building designs that inspire and resonate with their place.

We are seeking an intermediate level Project Manager with a passion for great “design”, its execution, and the craft of construction. The position offers a key role in the firm working on modern building projects ranging from custom homes, multi-family residential, commercial, medical, boutique hospitality, and private schools.

Qualifications

- An accredited First Professional Degree equivalent to a Bachelor of Architecture or Master of Architecture
- Architectural license or on a direct track to licensure
- An inherent curiosity and motivation to always continue learning within the complexities of the building design and construction process
- Strong project management skills for an efficient workflow and the ability to multi-task and work on multiple projects and design phases simultaneously
- 5 – 8 years broad experience in relation to the Design Development, Construction Documents and Construction Administration phases.
- Strong verbal communication skills, **a sense of humor** and a desire to contribute to a small, dynamic design firm
- High proficiency with Autocad and Revit
- Proficiency with Sketchup, Bluebeam, Photoshop, Illustrator
- Proficiency with 3D modeling/rendering software a strong plus
- Proficiency with Microsoft applications
- Interior Design experience a strong plus

Please send an email / cover letter indicating your interest in the position. Include a CV / resume, project portfolio (pdf or web-link) and pdf "construction document" samples (plans, sections, details - no more than 15mb)

Send to: armando@alopezarc.com and type "**intermediate**" in the subject line.
