

## Architect Needed - Historic Tingley House

The owners of the Tingley House at 1523 Silver Avenue SE are planning a remodel/renovation of the master suite. It is a Mediterranean/Mission-Style Revival home built in 1929. The current master bathroom, master bedroom, sitting room, and closet space need to be reimagined and updated, while preserving some of the historic details present in that part of the house. We'd like to hire someone who is particularly skilled in and passionate about renovating historic properties.
